

# Women at the Forefront of Climate Change

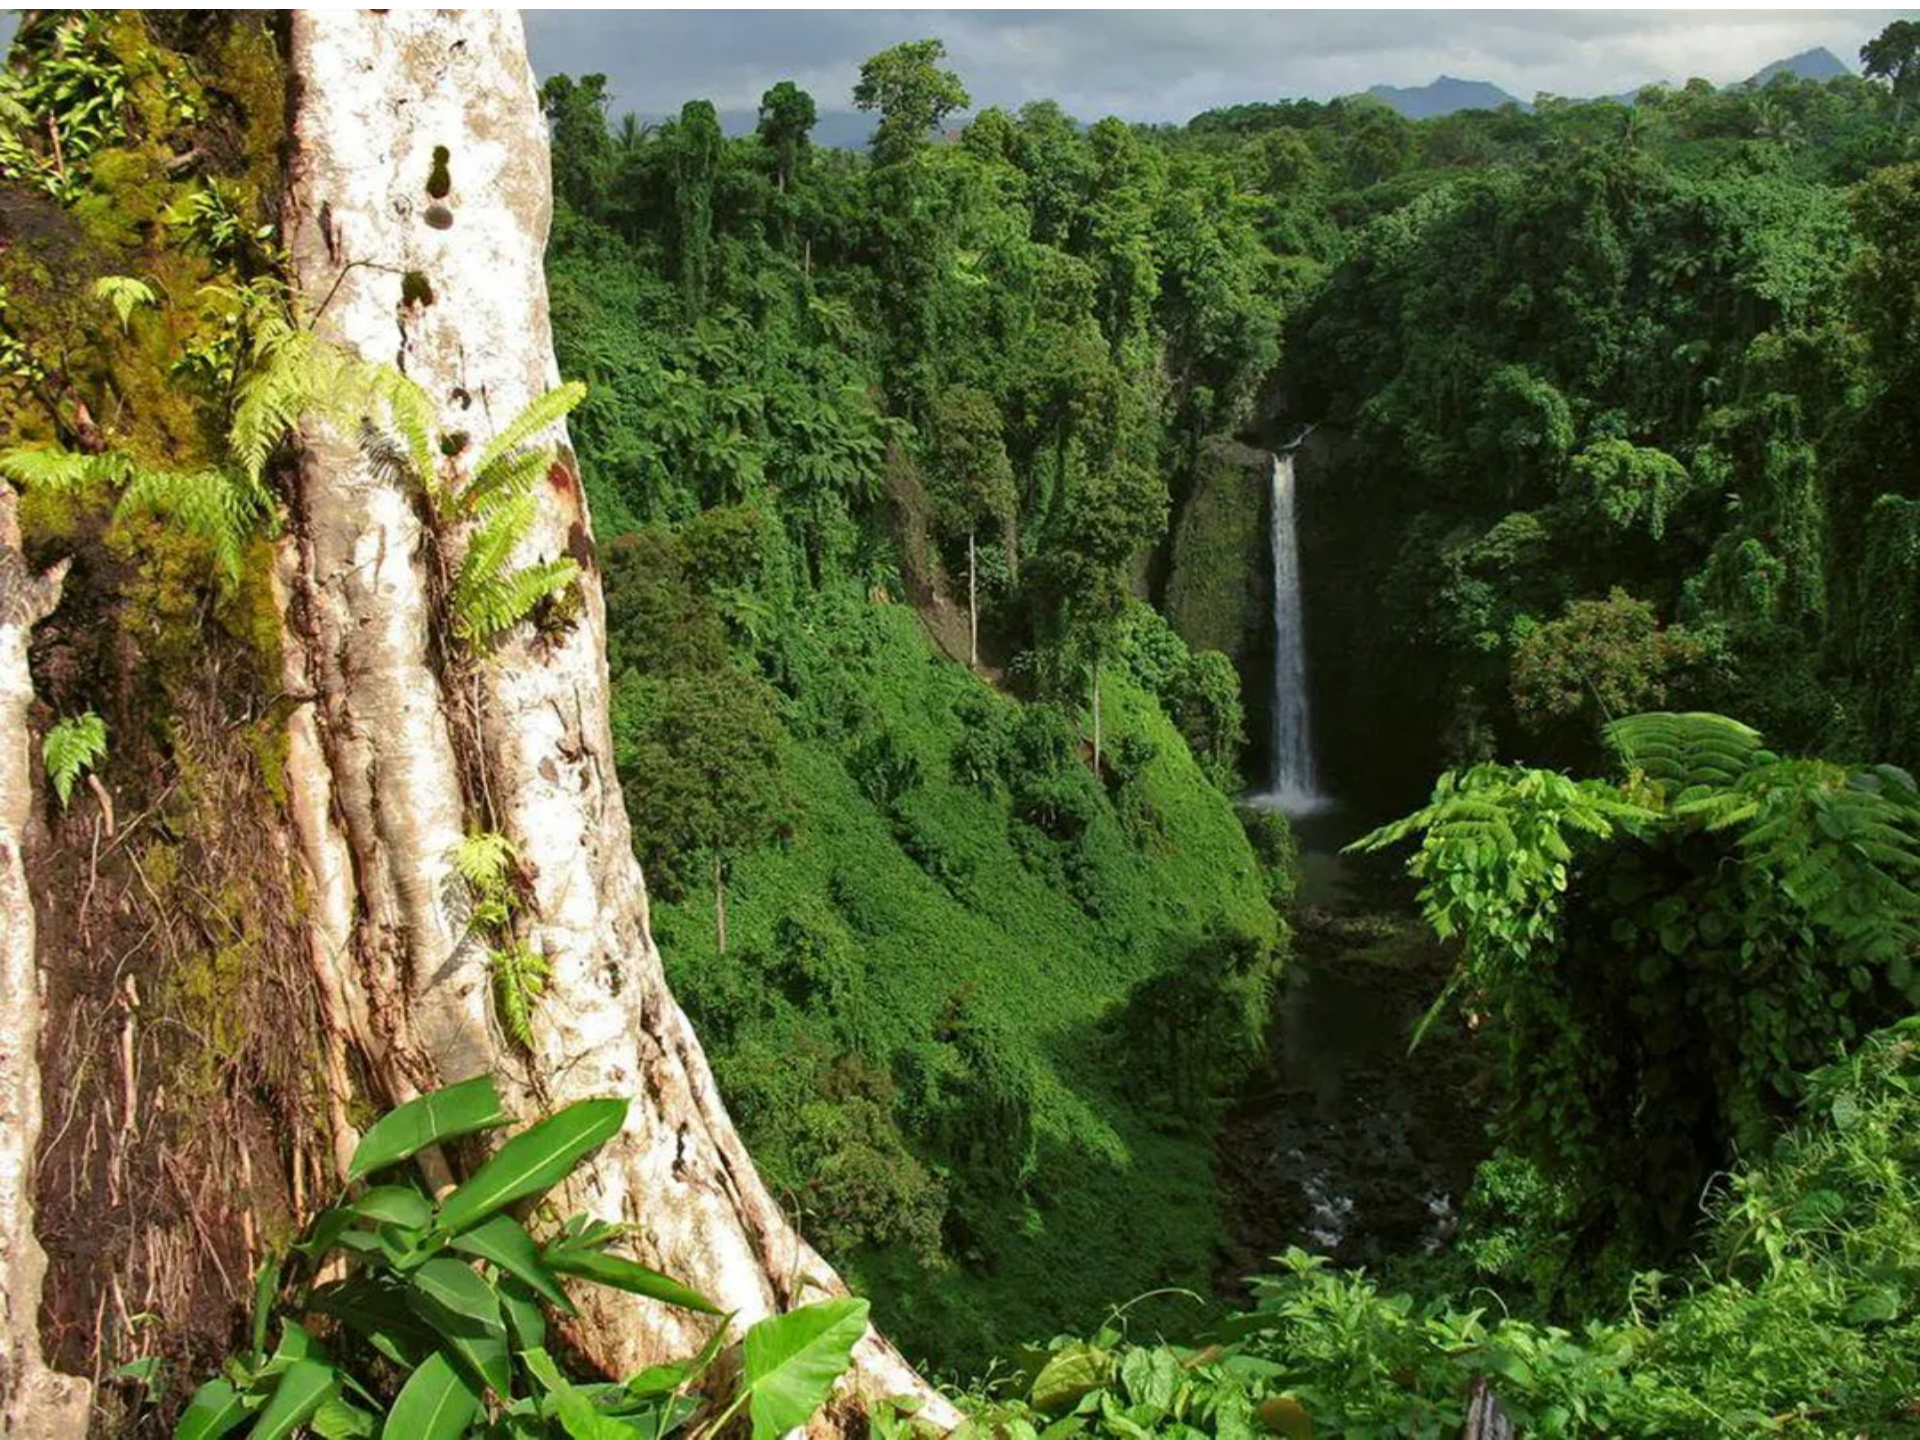

Paula Anamani RSM

COP26

**"LOOK CLOSELY  
AT YOUR WORDS"**

## REFLECTIVE QUESTIONS

- How can Mercy women support women leaders in their own country already advocating for climate justice?
- How can Mercy People in countries still supporting the expansion of fossil fuel mining challenge this policy and practice?

“  
**Empowering** women  
is the single most  
important way to  
ensure effective  
climate action.”

R ANDERSEN

*Executive Director, United Nations  
Environment Programme*
